-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by Ferguson (US 1,127,608).

Claim 15

Ferguson discloses an axle supporting structure for industrial vehicles comprising an axle supporting wheels (1) a vehicle frame (2) and a pair of links (5) which connect the axle and the vehicle frame, the links being disposed upwardly of the axle in a vertical direction and being disposed symmetrically about the center of the vehicle and inclined symmetrically with respect with respect to each other in a trapezoidal arrangement since they constitute two parallel sides, wherein: the pair of links (5) incline differently according to the relative displacement of the axle and the vehicle frame in the left and right direction as steering of the vehicle will produce this effect, and the posture of the vehicle is thereby controlled.

Response to Arguments

3. Applicant's arguments filed 01/23/2004 have been fully considered but they are moot in view of the new ground of rejection.

Claims 1-14 stand withdrawn from further consideration.

Art Unit: 3617

Applicant's amendment to claim 15 to incorporate the limitations of "the links being disposed upwardly of the axle in a vertical direction and being disposed ... in a trapezoid arrangement" forces the withdrawal of the previous rejection of claim 15 over Tanaka et al reference. The disclosure of an axle comprising "links being disposed upwardly of the axle in a vertical direction and being disposed ... in a trapezoid arrangement", however, is not new as illustrated by Ferguson.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frantz F. Jules whose telephone number is (703) 308-
